EXPERTS IN LITIGATION SUPPORT AND EDISCOVERY CAPABILITIES STATEMENT

ABOUT EVEREST DISCOVERY

Everest Discovery is a leading litigation support and eDiscovery provider serving legal departments, law firms and government agencies nationwide. Our core focus on solutions, service and security enables us to provide actionable insights that transform workflows, reduce risk and generate significant cost savings for our client base. We comprehensively address our clients' business problems by incorporating best-of-breed technologies, knowledge-based services and a consultative approach.

At Everest, we believe in a process that encourages, supports and celebrates diverse voices. We continue to build a culture where employees can be who they are and bring their best selves to the team. We are committed to these practices for our business, clients and vendors and providing opportunities for all.

Everest is proud to be ISO 27001 certified, a certified WBENC Women's Business Enterprise, a WOSB (Women-Owned Small Business) certified via the SBA and a GSA contractor.

DIFFERENTIATORS

Security

Everest's commitment to information security management is reinforced through our ISO/IEC 27001:2013 and EU Privacy Shield certifications. Each of our professionals is required to participate in and complete periodic security awareness initiatives.

Service

When you engage Everest, our professionals serve as an extension of your team. We are a true end-to-end discovery partner and strive to raise the standard of what to expect from a service provider through unmatched responsiveness, attention to detail and a proactive, consultative approach.

Solutions

Everest provides consultation to legal departments, law firms and government agencies throughout each phase of the EDRM. Our professionals work with your team to assess, develop and implement defensible solutions to simplify complex matters.
